## HANDICRAFT FIRENZE BEIGE

### TECHNICAL DATA

STRIPS 40/50/ FREE LENGTHS x 2,5 - 3cm

with joint width of 2 (to 3) mm *[0.08-0.12 in]* (as narrow as possible)

This is a new handmade natural product and hence the colour and size of the tiles within 1 batch and between several production batches may differ slightly.

For interior and exterior use.

*This is a new unique handmade product that can only be manufactured in small volumes: please order in time!*

### INSTALLING INSTRUCTIONS

- It is of major importance that the tiles are well mixed.
- The tiles are either 40cm or 50 cm wide and different lengths, so that they may be laid in alternate strips of 40cm and 50cm to give more presence (see picture).
- We recommend to keep a joint width of 2 (to 3) mm. The tiles are handmade, may differ slightly in size and a good installation will require just a little more attention and time.
- To be laid in a white mortar bed or a thick glue of 1cm.
- It's appropriate to double-glue the tiles, this means put glue on both the tile and the underground.
- Joint colour: cream-beige. In case of doubt, you may ask the floor layer to perform a sample before jointing the whole surface. We advise to apply a less contrasting joint.
- The joint can always be 1 mm deeper than the tiles, so not level with them. This will keep the shape of the tiles visible whereas the joint remains less apparent.
- Before starting the jointing work, moisten the floor. Joint small surfaces at once and sweep them off regularly in order to avoid cement grout film.
- When the tiles are completely dried out, clean the entire surface (with cement remover when necessary) until all traces of cement are removed. When the floor is fully dry

again, please treat the surface with the impregnation product “Remmers Funcosil AG impregnering” or “Lithofin Vlekstop W”. Apply the product twice with a soft painting roller, wet on wet. The product can foam slightly while you are applying it. After treating the whole floor, please polish it with a clean cotton cloth until all stripes have disappeared. Please only walk over the floor after 24 hours.

- Weekly maintenance with a vacuum cleaner and a nourishing soap (Berdy Topbril or Lithofin Wash & Clean) afterwards.
- Enjoy the beautiful result now!
